

Qualifying the workforce of tomorrow

# Health & Safety Consultancy

Safe and compliant work environments

## **Ensuring safe and compliant work environments.**

Through our specialised Health and Safety Consultancy services, we go beyond mere compliance to offer comprehensive solutions that address the unique challenges faced by construction firms. Our dedicated team of experienced consultants brings a wealth of expertise and industry knowledge to the table, empowering you to effectively navigate health and safety risks and meet regulatory requirements.

From risk assessments and safety audits to developing tailored safety management processes, we work closely with your team to implement robust safety protocols and procedures. By identifying potential hazards and implementing proactive measures, we help mitigate risks, prevent accidents, and create a safety first culture.

We understand that regulatory compliance can be complex and challenging to navigate. Our consultants stay abreast of the latest regulations and standards, ensuring that your organisation remains compliant with all relevant health and safety legislation.

With our proactive approach and attention to detail, you can have confidence in the safety and compliance of your operations.

# Health and Safety Consultancy Services

**With our suite of Health and Safety Consultancy services, we are committed to helping you create a safer, healthier work environment, mitigate risks, and achieve compliance across all environments.**

## Site Inspections

Our consultants conduct thorough site inspections to identify potential hazards, assess risk levels, and recommend corrective measures to enhance workplace safety.

## Workplace Inspections

Comprehensive inspections of sites and workplaces to assess compliance with health and safety regulations, identify areas for improvement, and mitigate risks.

## Health and Safety Auditing

Detailed health and safety audits to evaluate existing safety management systems, policies, and procedures, providing recommendations for enhancements.

## Health & Safety Questionnaires

Tailored questionnaires help assess your current health and safety practices, identify areas of strength and improvement, and develop targeted action plans.

## Risk Assessment/Method Statements

We assist in conducting risk assessments and developing method statements to systematically identify, evaluate, and control hazards, ensuring safe work practices.

## Health and Safety Training

Comprehensive training sessions tailored to industry requirements, covering topics such as hazard identification, accident prevention, and emergency procedures.

**Health and Safety Consultancy Services - continued...**

**Safety Culture Development**

Guidance and support in fostering a strong safety culture, emphasising employee engagement, leadership commitment, and continuous improvement.

**Incident Investigation and Reporting**

Expertise in investigating workplace incidents, accidents, and near-misses, analysing root causes, and developing corrective actions to prevent recurrence.

**Emergency Preparedness Planning**

Assistance in developing emergency response plans, conducting drills, and ensuring readiness to effectively respond to emergencies.

**Contractor Management and Oversight**

Support in managing subcontractors, ensuring compliance with safety regulations, verifying qualifications, and conducting pre-qualification assessments.

**Health and Wellbeing Initiatives**

Implementation of programs focused on promoting the physical and mental wellbeing, addressing issues such as stress management, fatigue, and substance abuse.

**Regulatory Compliance Assistance**

Ongoing support and guidance in interpreting and complying with evolving health and safety regulations, standards, and guidelines relevant to the construction industry.

**Safety Equipment and PPE**

Recommendations on appropriate safety equipment, personal protective equipment, and safety gear to ensure workers are adequately protected on construction sites.

## The costs

Our consultancy services are designed to equip your organisation with the knowledge, guidance, and support needed to navigate the complexities of health and safety compliance effectively. From conducting site inspections to developing safety management processes, we're here to help.

**Here's some information on how we charge for our health and safety consultancy services:**

- /// **Hourly Rate:** We offer consultancy services on an hourly basis, where clients are charged based on the number of hours spent by our consultants on-site or off-site. This billing method provides flexibility, allowing clients to utilise our services as needed without committing to a long-term contract.
- /// **Project-Based Pricing:** For larger-scale projects or ongoing consultancy engagements, we offer project-based pricing. This involves agreeing on a fixed fee for the entire project, considering factors such as the scope of work, the duration of the project, and the level of expertise required. Project-based pricing provides clarity and predictability in terms of costs.
- /// **Retainer Agreements:** Some clients prefer to retain our consultancy services on a recurring basis through retainer agreements. Retainer agreements provide peace of mind, ensuring that clients have ongoing support and expertise available whenever required.
- /// **Customised Packages:** We understand that every site is unique, and we offer customised consultancy packages tailored to meet any specific needs and budget constraints. Whether you require one-off advice, ongoing support, or comprehensive consultancy services, we can create a package that aligns with your requirements and delivers exceptional value.

Whether you're interested in hourly rates, project-based pricing, retainer agreements, or customised packages, we offer flexible options to accommodate your budget and requirements. Our transparent billing practices and commitment to value ensure that you receive the highest quality of service at a fair and competitive price.

## About us

At TUTS, we are dedicated to providing industry leading health and safety consultancy services tailored to meet the unique needs of our clients. With a commitment to excellence and a focus on customer satisfaction, we strive to be your trusted partner in creating safe and compliant work environments.

### Our mission

Our mission is simple: to empower organisations to prioritise safety and well-being in the workplace. We believe that every worker deserves to return home safely at the end of the day, and we are passionate about helping our clients achieve this goal through comprehensive risk management solutions and practical safety measures.

### What sets us apart

What sets us apart from the rest is our unwavering dedication to exceptional customer service. We understand that every client is unique, with their own set of challenges and requirements. That's why we take the time to listen, understand, and tailor our services to meet your specific needs. Our team of experienced consultants goes above and beyond to deliver personalised solutions that make a real difference.

### Exceptional customer service

At TUTS, exceptional customer service is at the heart of everything we do. We pride ourselves on building strong, long-lasting relationships with our clients based on trust, transparency, and mutual respect. From the moment you contact us, you can expect prompt, professional, and personalized service every step of the way.

### Our commitment to you

When you choose TUTS, you can rest assured that you're in good hands. Our team is dedicated to delivering results that exceed your expectations, providing expert guidance, ongoing support, and practical solutions to help you navigate the complexities of health and safety compliance. Your safety is our priority, and we're here to help you every step of the way.
